

**INVITATION TO SUBMIT PAPERS FOR *THE POLISH JOURNAL OF THE ARTS
AND CULTURE. NEW SERIES: 1/2021 and 2/2021***

The Polish Journal of the Arts and Culture. New Series is a peer-reviewed academic journal devoted to in-depth reflection on culture in all its manifestations throughout different circles and civilisations over the centuries. The interdisciplinary profile of the journal opens the door to cooperation with philologists, historians of religion, philosophers, cultural anthropologists and all who – in their research – focus on cultural phenomena using their own tools of interpretation.

Apart from academic papers we also accept yet unpublished translations from works in their original languages (or parts thereof) representing the ancient and contemporary literature of individual cultures, as well as book reviews, conference reports, and discussion of publications or events important to the wider discourse of cultural studies.

Currently, *The Polish Journal of the Arts and Culture. The New Series* (published by the Centre for Comparative Studies of Civilisations of the Jagiellonian University) is available in electronic format. We invite to visit our website: <http://www.ejournals.eu/PJACNS>. It receives 20 points on the list of scientific journals of the Polish Ministry of Science and Higher Education.
